This is a charging holder for a single 18650 lithium ion battery. It uses the TP4056 charging board, that you can get easy on eBay.
(Search for "lithium usb charger" or "TP4056")

The battery contacts used are 10x10mm but you can use whichever one you want.

The standard version fits unprotected cells of 65mm length, the "_protected" version fits protected cells of 68mm length

If you need one of my things printed or you want to suggest a modification on a part please drop me a message!

If you print one of my things i would be happy about some feedback and a make!

If you like my things please consider [supporting my caffeine addiction!](#)
